Yeshiva University, Katz School of Science and Health
Master of Science in Data Analytics and Visualization

New York, NY
Expected Dec 2026

University of Zimbabwe
Bachelor of Science (Hons) in Data Science & Informatics

Harare, Zimbabwe
Aug 2024

PROFESSIONAL EXPERIENCE

Data & Operations Analyst Intern
SnapRefund

Jan 2026 – May 2026
Philadelphia, PA (Remote)

- Analyzed 1,000+ monthly insurance transactions across ClaimsSnap and AgentSnap using SQL and Excel, identifying operational bottlenecks and reporting metrics to leadership.
- Cut manual payment processing time by 20% for carriers and TPAs by streamlining billing workflows.
- Wrote SEO-optimized industry articles for SnapRefund's website and LinkedIn, increasing organic discovery and contributing to a 15% increase in platform adoption.

Graduate Assistant
Katz School of Science and Health

Oct 2025 – Present
New York, NY (Onsite)

- Analyzed engagement metrics for 10,000+ followers across platforms, refining content strategy to grow reach by 20%.
- Built Power BI reports on content and campaign performance to guide the communications team's planning.
- Conducted qualitative research, synthesizing student interviews into 15+ narratives for the "Life at Katz" spotlight series to boost prospective student engagement.

Data Analyst
VEETNIC Enterprises

Jan 2024 – Dec 2024
Hwange, Zimbabwe

- Ran market basket analysis on 30,000+ monthly transactions to find product combinations, increasing sales by 8%.
- Maintained sales databases and streamlined data entry for 30,000 monthly transactions, reducing errors by 15%.
- Created sales and inventory reports in Power BI and Excel, improving decision-making speed by 20%.

Founder | Sales & Customer Analytics
Nicole's Treats

Aug 2021 – Dec 2024
Harare, Zimbabwe

- Analyzed sales and customer data using Python and Excel, optimizing pricing strategies for 50+ products and increasing revenue by 12%.
- Designed Tableau visualizations of 500+ monthly transactions and customer preferences, boosting product development efficiency by 25%.

Data Science Intern
Zimbabwe Power Company (ZPC)

Aug 2022 – Aug 2023
Hwange, Zimbabwe

- Cleaned and structured datasets of 10,000+ records, boosting reporting accuracy by 25%.
- Developed dashboards in Excel and Tableau visualizing fuel usage and KPIs for 5 operational units.
- Delivered insights that reduced fuel waste by 10%, saving \$70,000 annually.

PROJECTS

- Healthcare Claims Analytics Pipeline** (SQL, dbt, DuckDB): Built a star-schema pipeline turning raw claims data into a dashboard-ready model with 17 automated data quality tests.
- Insurance Profitability Explorer** (Power BI, DAX): Designed an interactive dashboard analyzing profit and loss ratio by product, underwriter, region, and sales channel.
- USA Flight Delay Analysis** (Python, SQL, Tableau): Analyzed airline data to identify delay and cancellation trends by cause, carrier, and airport.
- Chronic Disease Analytics** (PostgreSQL, ETL): Built an OLTP database and OLAP star-schema warehouse with SQL ETL to surface chronic disease trends.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Scikit-learn, XGBoost, Matplotlib, Seaborn), SQL, R

BI & Visualization: Power BI (DAX), Tableau, Excel, Looker Studio

Data Engineering: dbt, PostgreSQL, DuckDB, ETL, Data Modeling, Data Wrangling

Analysis: Statistical Analysis, Time Series Analysis, Predictive Modeling, Customer Insights, LLMs, RAG
